A well-articulated customer problem statement allows you and your team to find the ideal solution for the challenges your customers face. Throughout the process, you'll also be able to empathize with your customers, which helps you better understand how they perceive your product or service.

<b>but</b>	<small>Describe what problems or barriers stand in the way – what bothers them most?</small>	Describe the problems or barriers that get in the way here
<b>because</b>	<small>Enter the "root cause" of why the problem or barrier exists – what needs to be solved?</small>	Describe the reason the problems or barriers exist

### Problem Statement - Car Resale Value Prediction

Due to the huge requirement of used cars and lack of experts who can determine the correct valuation, there is an utmost need of bridging this gap between sellers and buyers. This project focuses on building a system that can accurately

predict a resale value of the car based on minimal features like kms driven, year of purchase etc.

I am	I'm trying to	But	Because	Which makes me feel
customer	Buy resale car	Could not trust any seller	the conditon of the battery seems so poor in reselling car	sad
car enthusiast	get more number of cars in different brands	can't get a trustworthy retailer	No warrenty of buying pre-owned cars	Reluctant to buy
Car buyer	Search car based on expected amount	can't able to filter the car based on amount	there is no such option to search based on amount	to search another platforms that are better that it
Speed freak	to get high mileage cars	a used car is not reliable	because of low maintainence	inconvinient
